

## Anaconda Environments

How to install Anaconda on Windows:

<https://www.datacamp.com/community/tutorials/installing-anaconda-windows>

Anaconda Cheat Sheet:

<https://docs.conda.io/projects/conda/en/4.6.0/downloads/52a95608c49671267e40c689e0bc00ca/conda-cheatsheet.pdf>

#create an environment

conda create --name snakes

#activate environment

conda activate snakes

# how to install packages

conda install jupyter notebook

#install the following packages

scikit-learn

numpy

matplotlib

jupyter notebook

jupyter lab

#what about packages that aren't in conda to conda install?

#try looking for the package in conda forge.
